 Andhra Pradesh, India

PROFESSIONAL SUMMARY

Software Developer with **3+ years of experience in banking and fintech systems**, specializing in **Oracle PL/SQL and complex business logic development** for high-volume financial transactions.

Strong expertise in **Java, Spring Boot, REST/SOAP APIs**, and secure system design. Proven track record of delivering **scalable, compliant, and production-ready banking applications** for leading financial institutions. Experienced in **end-to-end delivery, client coordination, and system optimization**.

CORE SKILLS

- Oracle SQL & PL/SQL Development
- Complex Business Logic Implementation
- Java & Spring Boot Development
- REST & SOAP API Integration
- Banking & Financial Systems
- Secure Transaction Processing
- PCI-DSS Compliance
- Performance Optimization & Query Tuning
- Production Support & Deployment
- Client Coordination & Delivery

TECHNICAL SKILLS

Database & Backend

- Oracle SQL, PL/SQL

- Stored Procedures, Functions, Triggers
- Query Optimization & Performance Tuning

Programming Languages

- Java
- JavaScript
- HTML, CSS

Frameworks

- Spring Framework
- Spring Boot

API & Integration

- REST APIs
- SOAP APIs
- Secure API Integration

Tools & Technologies

- IntelliJ IDEA, Eclipse, VS Code
- Postman, SonarQube
- Jasper Reports

Version Control

- Git

Operating Systems

- Windows, Linux, Ubuntu

PROFESSIONAL EXPERIENCE

Software Developer

Yalamanchili Payment and Cards

 Sep 2022 – Present

- Developed and maintained **scalable banking and prepaid card systems** using Oracle PL/SQL and Java
- Designed and optimized **complex PL/SQL procedures and queries** for high-volume transactions
- Integrated **REST & SOAP APIs** for secure financial communication
- Managed **end-to-end deployments (UAT → Production)** ensuring high availability
- Collaborated with clients for **requirement analysis and solution delivery**
- Improved system performance through **query optimization and tuning**
- Ensured **code quality and security compliance** using SonarQube
- Built **real-time financial reports** using Jasper Reports
- Provided **production support**, resolving critical issues with minimal downtime

PROJECT EXPERIENCE

RBL Bank – Forex Travel Cards (Delivery Lead)

- Developed **multi-currency forex card platform**
- Built backend using **Oracle PL/SQL + Java Spring Boot**
- Integrated secure **REST & SOAP APIs**
- Ensured **PCI-DSS compliance** and real-time processing

Canara Bank – Prepaid Gift & Classic/Plus Cards (Team Lead)

- Led **end-to-end product delivery**
- Designed **backend business logic using PL/SQL**
- Managed **API integrations, deployment, and client coordination**
- Ensured **secure financial processing and compliance**

Axis Bank – PAN Aadhaar Linkage System

- Developed secure system using **encryption & compliance standards**

- Implemented **PL/SQL-based validation engine**
- Ensured secure integration with banking systems

Axis & Canara Bank – Notification System

- Built **real-time SMS & Email notification system**
- Used **Oracle triggers and API integrations**
- Enabled **event-driven communication system**

Canara Bank – Prepaid & Forex Cards Platform

- Developed **branch & customer portals**
- Implemented **transaction processing, PIN management, card controls**
- Ensured **scalable and secure banking integration**

TTUM – Canara Bank

- Automated **financial reconciliation processes**
- Generated **audit-ready reports using Jasper Reports**
- Reduced manual effort by **60%+**

EDUCATION

Master of Computer Applications (MCA)

Andhra University | 2024 – 2026

Bachelor of Science (Chemistry)

2018 – 2021 | **86%**

ADDITIONAL INFORMATION

Languages:

English, Telugu, Hindi

Strengths:

- Strong problem-solving in banking systems
- Secure coding & compliance mindset
- Ownership & leadership in delivery
- High reliability system development
